

Patent Application of Paul Curtis Hynek for "Waterproof, Tear-Resistant Accordion Book with Magnetic Covers and Method of Making Same" continued

ABSTRACT

A waterproof, tear-resistant accordion book with magnet covers that hold the book together, and adhere to magnetically susceptible surfaces. The book comprises an accordion-folded sheet of material which is tear-resistant and waterproof and can be preprinted or can be written upon. The covers are attached to the respective outer folded portions. The book also can be made with tear-off pages that extend beyond the covers, and can also be made to float by means of a buoyant layer.
